

CHILD SAFE STANDARDS

The Victorian Government announced the introduction of compulsory Child Safe Standards for organisations which work with children in Victoria.

The Standards arose from a key recommendation from the landmark Betrayal of Trust Inquiry and support cultural change across organisations in order to ensure that children are protected from abuse and exploitation by staff and volunteers. The scheme builds on existing policies and procedures already in place to improve capacity and consistency across sectors.

Complying with the standards will be achieved through the development and implementation of the following key outcomes, which LSV will deliver to Clubs to assist with their implementation over the next period;
